

FRANKE SISSONS COMFORT BABY CHANGING STATION

FRANKE SISSONS COMFORT BABY CHANGING STATION

The Franke Sissons Comfort Baby Changing Station is an ergonomically designed multifunctional product for nappy changing young children and for hand washing ideally in Day Nurseries, Crèches, Shopping Centres, Department Stores, Leisure Centres and Sports Clubs and Residential Care Homes and any other baby change environment.

The Comfort Baby Change Station washbasin and changing area is made from a durable composite material called Miranit which is warm to the touch, easy to clean and will provide a long lasting surface for years to come.

Ergonomically shaped safe baby change area.

Self Closing tap and safe shallow bowl.

Tap supplied for regulating water consumption and with anti-scald temperature control.

Waste outlet suitable for rinsing hands in the shallow washbasin.

Lockable doors with recessed handles and with soft close doors for added child safety to safeguard little fingers.

Restraining strap with easy to open clasp to British Standards BS 1888.

Smooth hygienic changing area with high curved front edge with no need for a separate changing mat.

Optional mirror images for doors and removable front panel featuring supervisor access.

Manufactured in accordance with requirements of BS4875 and using products to BS1888

FRANKE SISSONS COMFORT BABY CHANGING STATION

The Comfort Baby Changing Station has been designed with parents and child carers in mind by combining the primary requirements of ease of use, child safety, hygiene, hand washing facility and safe storage. The design provides all these requirements in an attractive, hygienic and durable product that vastly improves the appearance of the traditional baby changing facilities.

The product can be combined with a wide number of additional products such as wall mounted paper towel dispensers, soap dispensers and nappy disposal bins.

The Base unit is provided in two product options, 2 door or 4 door for storage and access for maintenance to plumbing and services. The lockable doors are made from scratch resistant laminate in attractive primary colours with recessed handles. The hinges open 170° to prevent trapping little fingers. The cabinet construction is manufactured from 50mm material and to BS 4875 to ensure durability and strength of the finished product.

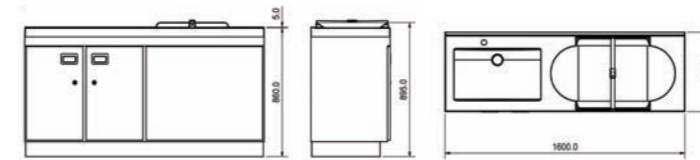

The Baby Changing Station provides a safe, solid and durable product that is free standing and can be located in a wide variety of locations within a washroom or changing facilities where water and waste facilities are available. The WRAS approved self closing tap has an anti-scald feature to TMV3 water regulations. The restraining strap that is made to BS1888 regulations and has an easy to release clasp.

Suitable Installations Include:

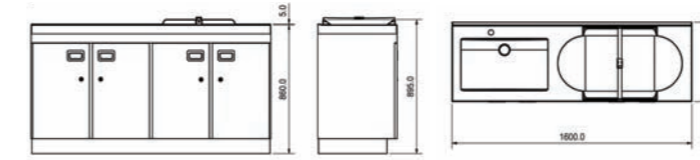

- Day Nurseries
- Crèches
- Shopping Centres
- Department Stores
- Leisure Centres
- Sports Clubs
- Residential Care Homes
