

Product Features And Benefits:
BLAST Hand Dryer

** Patented Features

DISPENSER FEATURE	BENEFIT IN USE
Unsurpassed drying speed	Blows water off hands and evaporates residual moisture, drying hands completely in approximately 10 seconds.
Blast dries hands in 1/3 the amount of time and uses a lower temperature element that consumes less energy (1450W)	Environmentally friendly - Blast uses 1/6 the energy of a conventional/traditional dryer
Cost in use	Costs up to 95% less than paper towels to operate, and 80% less to run than conventional dryers
Compact and small unit	Will fit into any location
Sensor operated	Easy to use and no wastage of paper from paper towel dispenser
Part of co-ordinated washroom range	Offers matching products and high quality finish
“bubble” private branding system	Each unit contains a unique lens and lens backing component, which facilitates Private Branding, corporate identity as well as point of use messaging or advertising.
6mm thick cast iron cover with porcelain enamel finish	Durable and vandal resistant, easy clean, strong finish
Choice of three colour finishes	Suitable for any location and aesthetic consideration
